

# ATC Report

David Bones ATC Chair  
2017 AGM - Adelaide

## 2017 – Another Highly Productive Year

---

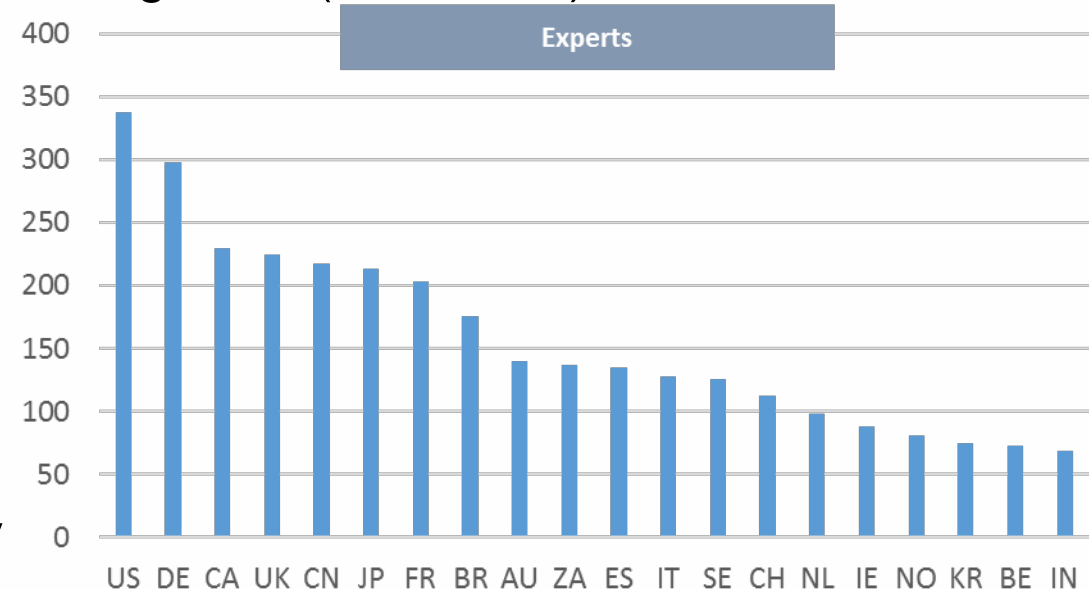

- From a Technical Perspective 2017 was a productive year
- Key ANZ highlights included
  - Technical seminars SEAPAC, Transformer Workshop and CIDER
  - 16 Australian Panel meetings
    - some incorporating technical seminar/colloquium:
      - recent C4/B4 meeting in Brisbane and
      - B2 meeting in Melbourne
  - Continued involvement of NGN on Panels and WG

## 2017 – Contributing Internationally

- International Activities

- Supporting SC meetings and associated seminars
- Participating and leading WGs (ranked 9<sup>th</sup>)
- ANC supported
  - 12\* WG
  - 10 convenors
  - Aà D covered
  - KPI = 10
  - SCB3 Chair
  - SCA1 Secretary

\* Within budget as some WG aligned with SC meeting

## 2017 – ATC Technical Seminar

---

- Theme
  - Global collaboration solving Australian power system challenges
- Purpose
  - Promote the work of CIGRE and inform members of technical highlights achieved across 2017
  - Each panel convenor presented key technical activities undertaken across 2017, focussing on those activities with highest relevance to CIGRE Australia members
  - Panel presentations will form part of the annual report provided to members
- Over 60 attendees

## 2017 – Annual Reports

---

- Circulated electronically following AGM
- Will include:
  - ATC report summarising key technical activities and achievements across 2017
  - Slides presented at the 2017 ATC Technical Seminar
  - Reports from all 16 Australian Panels
  - Reports from each WG member/convenor who received financial support during 2017
