Friday 13 March

[REGISTER ONLINE](#)

By attending this event, you will have the opportunity to hear from a group of International Experts in Switchgear Design, Testing and Condition Monitoring from the CIGRE WG A3.32.

Topics include:

- Internal arcs in electrical installations
- Design of HV switchgear
- Design of MV switchgear
- Switching of reactor and capacitor banks
- Online condition monitoring methods for HV and MV switchgear
- Testing of switchgear

Speakers include:

- Nenad Uzelac, Chair WG A3.32, G&W Switchgear, USA
- Javier Mantilla, ABB, Switzerland
- Sebastian Poirier, Research Institute of Hydro-Quebec, Canada
- Jose Lopez-Roldan, Powerlink, Australia
- Xiaohua Wang, Xi'an Jiaotong University, China
- Colin McCahey, ESBI, Ireland
- Venanzio Ferraro, Schneider Electric, France
- Takahiro Miyamoto, Mitsubishi, Japan
- Bernd Schüpferling, Siemens, Germany
- Don Etheridge, ABB, Australia
